Certifications & Partnerships

- **Member of Global Compact (UNGC)**
- **Certified by Green Logistics Alliance**
- **Strategic collaboration with local governments on emission reduction**
- **Verified carbon tracking tools integrated into logistics systems**

Completion and Production Services

We provide completion-focused equipment and services designed to initiate, enhance, and sustain the flow of oil and natural gas from the wellbore throughout the entire life cycle of the well. Our solutions are engineered to support efficient production, optimize performance, and ensure long-term operational integrity.

Looking Ahead

We will continue to innovate and adapt to ensure our ESG goals drive long-term impact. Our leadership is focused on continual improvement, accountability, and transparency as we shape a more resilient and responsible energy future.

Offshore Manufactured Products

At BBQ, we specialize in providing secure and efficient tank storage solutions for a wide range of applications across the energy and industrial sectors. Our facilities support operations involving floating production systems, subsea pipelines, offshore drilling rigs and vessels, as well as storage needs for subsea mineral gathering, offshore wind, geothermal, military, and other industrial operations.
